# IIS Upgrade Communications

---

Last month the EHR experts brought up this issue:

- IIS upgrade their systems without enough warning to EHR partners
- EHR vendors/implementers need 30-60 day notice of upcoming changes
- Data flows are being interrupted or broken during upgrades

AIRA team is looking at this issue:

- AIRA technical assistance team also needs a way to track IIS upgrades
- Looking for a way to track this centrally for everyone to update and use

Solutions being looked at:

- Email distribution list
- Dynamic webpage in AART (accessible by both EHR and IIS)
- AIRA taking a role in reaching out to IIS to ask when upgrades will happen

Welcome  
EHR Experts!
